
User backup configure

Description

Soffid allows you to configure some backup parameters.

Go to In the "User backup configure & restore" page, in the hamburger button click the option "Configure backup".

Screen overview

The screenshot shows a dialog box titled "Configure backup parameters". It contains three configuration options: "Minimum delay between backups :" with a spinner box set to 30, "Number of backups to keep alive :" with a text box set to 10, and "Enable entitlements history :" with a green "Yes" button and a blue "No" button. At the bottom right, there are "Accept" and "Cancel" buttons.

Custom attributes

- **Minimum delay between backups**
- **Number of backups to keep alive**
- **Enable entitlements history**

Actions

Accept	Allows you to save the configuration.
--------	---------------------------------------

Cancel	Allows you to cancel any change and close the configuration window.
---------------	---
