

How to copy to Kubernetes Secrets?

When making any manual changes to the Sync server configuration files, it will be necessary to copy these changes to the Kubernetes secrets.

Command example:

```
java -cp "/opt/soffid/iam-sync/bin/bootstrap.jar" com.soffid.iam.sync.bootstrap.KubernetesSaver
```

Soffid version 3.x upgrade automatically the certificates when the certificate end date is close and no manual actions are required.
