

Reports definitions

Description

At the report definitions tab you can add new reports to Soffid Console, and manage the the existing ones.

You can create your own reports, you can visit the [How to customize Reporting page](#), or download then from the [Standard reports library page](#).

Screen overview

[Executed reports](#) [Scheduled reports](#) [Report definitions](#)

The screenshot shows a web interface for 'Report definitions'. At the top, there are three tabs: 'Executed reports', 'Scheduled reports', and 'Report definitions' (which is highlighted). Below the tabs is a table with a green header row containing a dropdown menu labeled 'Report' and a search filter box. The table lists five reports, each with a checkbox on the left:

<input type="checkbox"/>	Report
<input type="checkbox"/>	Auditoría de autorización (global)
<input type="checkbox"/>	Business units detail
<input type="checkbox"/>	Identities list
<input type="checkbox"/>	Overview_Report
<input type="checkbox"/>	Types Accounts

Displayed rows: 5

Actions

Download iReport component

Allows you to download the ireport-addon.jar. That add-on will be customized and added to the iReport designer to design your owns reports. You can visit the [How to start Reporting in Soffid page](#).

Upload	<p>Allows you to upload a designed report with iReport tool. You can upload default jasper files or customized jasper files as well.</p> <p>First of all, you need to click the Upload option by clicking in the hamburger icon. Then Soffid will display a window to pick up the new report (a .jasper file).</p>
Add	<p>Allows you to upload a designed report with iReport tool. You can upload default jasper files or customized jasper files as well.</p> <p>First of all, you need to click the add button (+). Then Soffid will display a window to pick up the new report (a .jasper file).</p>
Delete	<p>Allows you to delete one or more defined reports. To delete reports, first select the reports, then click on the subtract button (-) and finally Soffid will ask you to confirm or cancel the operation.</p>
Update report	<p>By clicking on a report, Soffid will display the report configuration. You could update and customize the report configuration.</p>

You can download the **iReport** designer from [sourceforge](#).
