How to install Role mining in Soffid

Installation

Download

Please download the Soffid Role mining add-on.

You could download it at the following link http://www.soffid.com/download/enterprise/ if you have a Soffid user with authorization, or in the following http://download.soffid.com/download/ by registering.

Upload

1. Once the Role mining add-on is downloaded, please log in to IAM Console.

> You need to be an administrator user of the Soffid console or a user with permission to upload addons.

> It is recommended to upload the addons to the master, this is the way to maintain updated all, master and tenants if there are.

2. In the Soffid console, please go to:

`Main Menu > Administration > Configure Soffid > Global Settings > Plugins`

3. Then, click the add button (+) and pick the file and Soffild will upload the addon file.

> For more information visit the Addons Getting started page.

4. Finally, when the addon is installed, it will be required to restart the **Soffid Console** and the **Sync Server**

5. Once the Soffid console is restarted, you could check the plugin was uploaded properly on the plugins page:

`Main Menu > Administration > Configure Soffid > Global Settings > Plugins`

6. To begin the Role mining process a user with SOFFID_ADMIN permission must start it.
