Getting Started

Introduction

> Soffid allows you to combine two of the most powerful addons you can use into Soffid Console, **SCIM,** and **Federation**.

Please note that the SCIM REST Web Service Add-on installed must be installed, please check this part in How to use SCIM in Soffid # Installation

Please note that a user with the authentication is required, please check this part in How to use SCIM in Soffid # Confirm authorization

Please note that it is recommended to use a REST client, please see our example in Testing tool # RESTer

Please note that the correct header parameters must be used, please browse them in SCIM in Soffid # HTTP request

Please note that the Federation addon must be installed and configured, check it in the Federation book.

Identify Service Provider

- **classe**: "S"

Service providers Types
