

□ Getting Started

Introduction

Soffid allows you to combine two of the most powerful addons you can use into Soffid Console, **SCIM**, and **Federation**.

Please note that the SCIM REST Web Service Add-on installed must be installed, please check this part in [How to use SCIM in Soffid # Installation](#)

Please note that a user with the authentication is required, please check this part in [How to use SCIM in Soffid # Confirm authorization](#)

Please note that it is recommended to use a REST client, please see our example in [Testing tool # RSTer](#)

Please note that the correct header parameters must be used, please browse them in [SCIM in Soffid # HTTP request](#)

Please note that the Federation addon must be installed and configured, check it in [the Federation book](#).

Identify Service Provider

- **classe:** "S"

Service providers Types

Service providers types available

- **SAML:** saml
- **SAML API client:** soffid-saml
- **OpenID Connect:** openid-connect
