    "urn:soffid:com.soffid.iam.addons.federation.common.EntityGroup"
  ],
  "name": "SP Cloud",
  "id": 6780695
}
```

Update all

This operation replaces all values in the entity group.

- Note that the attribute id is required to confirm that the resource "...EntityGroup/<id>" is the same that the JSON EntityGroup.
- Note that all the attributes not included in the request will be cleared in the EntityGroup and their data will be lost.
- Note that not all the attributes are updatable, for example, tag meta, avoid these tags.
