Search Types

Description

Throughout the Soffid you will be able to perform searches on the different objects that make up the application.

You will be able to search in the system by applying different ways of searching.

Quick

This option allows a quick search by fields that have been defined in the application metadata. You can find metadata configuration on [Global Settings > Metadata](#)

You only have to type in the field provided for this purpose and press enter or click on the magnifying glass, then Soffid will display the list with the objects that complain the criteria typed.

You can include some characters "," "." and "/" as word separators in the search text.

Example

[Main Menu](#) > [Administration](#) > [Resources](#) > Users

frank

QuickBasicAdvanced

<input type="checkbox"/>	Picture	User name	Full name	Primary group	Enabled	Birth Date	First name	Last Name	Middle name	Type
<input type="checkbox"/>		aretha	Aretha Franklin	Support IT	Yes		Aretha	Franklin		I
<input type="checkbox"/>		frank	Franka Sinatra	Support IT	Yes		Frank	Sinatra		I
<input type="checkbox"/>		rfranklin	Rosalind Franklin	scientist	Yes		Rosalind	Franklin		I

Displayed rows: 3

[Main Menu](#) > [Administration](#) > [Resources](#) > Users

fra,k

QuickBasicAdvanced

<input type="checkbox"/>	Picture	User name	Full name	Primary group	Enabled	Birth Date	First name	Last Name	Middle name	Type
<input type="checkbox"/>		aretha	Aretha Franklin	Support IT	Yes		Aretha	Franklin		I
<input type="checkbox"/>		frank	Frank Sinatra	Support IT	Yes		Frank	Sinatra		I
<input type="checkbox"/>		rfranklin	Rosalind Franklin	scientist	Yes		Rosalind	Franklin		I

Displayed rows: 3

fra/k

[Quick](#) [Basic](#) [Advanced](#)

<input type="checkbox"/>	Picture	User name	Full name	Primary group	Enabled	Birth Date	First name	Last Name	Middle name	Type
<input type="checkbox"/>		aretha	Aretha Franklin	Support IT	Yes		Aretha	Franklin		I
<input type="checkbox"/>		frank	Frank Sinatra	Support IT	Yes		Frank	Sinatra		I
<input type="checkbox"/>		rfranklin	Rosalind Franklin	scientist	Yes		Rosalind	Franklin		I

Displayed rows: 3

Basic

This is the default option. It provides some default search criteria and other criteria can be added from the add criteria option. These criteria will depend on the entity or object on which the search is being performed.

Remember, each criteria will be added to the previous ones. Each search criterion will have different search forms depending on the type of data in the particular field. For instance, a text field provides four different options to search, "Contains", "Start with", "End with" and "Equals", a date field provides the date "Since" and date "Until".

Soffid allows you to add criteria by clicking on the Add criteria button, then Soffid will display a list with all the criteria available and allows you to select to add a new one. To delete criteria you only have to click on the Equis icon (x) of the criteria you want to remove and automatically Soffid will remove the criteria and run the search without the removed criteria.

The criteria depend on the object list where you are working, so for instance the criteria are not the same for the user's list and the group's list.

Example

Birth date Any

Type Any

User name Any

Last Name Contains: "adams"

Primary group Any

Add criteria

[Quick](#) [Basic](#) [Advanced](#)

<input type="checkbox"/>	User name	Full name	Primary group	Enabled	NIF
<input type="checkbox"/>	alice	Alice ADAMS	enterprise	Yes	
<input type="checkbox"/>	asok	Asok ADAMS	enterprise	Yes	
<input type="checkbox"/>	boss	The Boss ADAMS	enterprise	Yes	
<input type="checkbox"/>	carol	Carol ADAMS	enterprise	Yes	

Advanced

This option allows an advanced search system using the **SCIM standard**. You can type the query to search the info using the SCIM standard.

You can access to [SCIM Book](#) for more information

Example 1

[Main Menu](#) > [Administration](#) > [Resources](#) > Users

lastName co "adams" AND active eq true

[Quick](#) [Basic](#) [Advanced](#)

<input type="checkbox"/>	▼ User name	⚙ Full name	⚙ Primary group	⚙ Enabled	⚙ NIF
<input type="checkbox"/>	alice	Alice ADAMS	enterprise	Yes	
<input type="checkbox"/>	asok	Asok ADAMS	enterprise	Yes	
<input type="checkbox"/>	boss	The Boss ADAMS	enterprise	Yes	
<input type="checkbox"/>	carol	Carol ADAMS	enterprise	Yes	

Example 2

[Main Menu](#) > [Administration](#) > [Resources](#) > Users

attributes.manager co "fran"

[Quick](#) [Basic](#) [Advanced](#)

<input type="checkbox"/>	▼ User name	⚙ First name	⚙ Last Name	⚙ Primary group	⚙ Enabled	⚙ Manager

<input type="checkbox"/>	inewton	Isaac	Newton	scientist	Yes	frank
<input type="checkbox"/>	janis	Janis	Joplin	Music	Yes	frank

Displayed rows: 3

Column Selector

Description

Throughout the Soffid Console, we can find a large number of list-type components. These lists are used to display the corresponding objects data in each case, for instance users, accounts, ...

This component allows you to add or remove columns, but also allows you to sort by the name of the columns to display them in the list. Be in mind, the columns are the attributes of an object (an user, or an account...).

It is easy to use, once you click on the hamburger icon and the Add or remove columns option, Soffid will display a window with the available columns for the object, then just drag and drop them in the order you want and click on the Apply changes button. Once you Apply changes, Soffid will display the list with the attributes in the order you defined.

Example

Add or remove columns

<input type="checkbox"/>	Visible columns
<input checked="" type="checkbox"/>	User name
<input checked="" type="checkbox"/>	Full name
<input checked="" type="checkbox"/>	Primary group
<input checked="" type="checkbox"/>	Enabled
<input type="checkbox"/>	NIF
<input type="checkbox"/>	PHONE
<input type="checkbox"/>	Manager
<input type="checkbox"/>	Contract type
<input type="checkbox"/>	First name
<input type="checkbox"/>	Last Name
<input type="checkbox"/>	Middle name
<input type="checkbox"/>	Type
<input type="checkbox"/>	Home server
<input type="checkbox"/>	Profile server

Displayed rows: 34

Undo

Apply changes

Download CSV file & Import

Download CSV file

Soffid allows you to download all data objects displayed in tables in a CSV file.

You can access to **Download CSV file** option through the hamburger icon from most of the components of the table type.

Import

Soffid allows you to upload a CSV file with the data list to add, update or delete information to the data table. The operations that can be performed with the data import depend on the table on which the process is being performed.

You can access to **Import** option through the hamburger icon from most of the components of the table type.

To import data from a CSV file, first of all it will be to pick the file to import. Once the file has been selected, the data will be displayed to check contents. If the content is correct, then it is allowed to set up the mappings for each CSV file column, "Don't load" option is available. Finally it is allowed to perform the import process.

When the import process finishes, Soffid will show a message with the result of the process execution.

Bulk actions

Description

Allows massive operations to be performed on the selected records. With that operation, updates can be made to any of the object parameters.

You can access this option through the hamburger icon from a few of the components of the table type, like users list or accounts list.

1. First of all, you need to select the records that you want to update from the list, once you have selected them, you must choose the bulk action on the hamburger icon.

2. Then Soffid display a modal where you can select one by one the attributes that will be updated.

The first dropdown list displays the attributes of the object, for instance, the user attributes.

The second dropdown list displays the operation to be performed on the selected attribute. The operation can be change the value or clear the value, and if it is necessary the new value.

The type of the third field will depend on the attribute type selected previously.

The screenshot shows a modal window titled "Image" with a hamburger icon. The modal has a progress bar at the top with three steps: "Select actions" (highlighted in green), "Confirm actions", and "Finish". Below the progress bar, there are three rows of dropdown menus. The first row has "Enabled" selected in the first dropdown, "Change value" in the second, and a "Yes" button and a pause icon in the third. The second row has "Type" in the first dropdown, "Change value" in the second, and "External user" in the third. The third row has "- Select attribute -" in the first dropdown. At the bottom right, there are "Back" and "Next" buttons. The modal is overlaid on a table with columns "main Conte" and "users".

3. Soffid shows a confirmation message with the number of records that will be updated. Finally, you can choose apply or come back. If you apply the changes, the attributes of the selected

records will be updated

Issue Actions

Actions

Issues query action

Download CSV file	Allows you to download a CSV file with the issue data.
Add or remove columns	Allows you to show and hide columns in the table. You can also set the order in which the columns will be displayed. The selected columns and order will be saved for the next time Soffid displays the page.

Issue detail

Close	Allows you to quit without applying any changes.
Acknowledge	Allows you to check as Acknowledged
Solve issue	Allows you to mark as solved the issue.
Send custom email	Allows you to send a custom email to one recipient.
Add Comments	Allows you to add comments to the Action logs.
