Look & feel

Definition

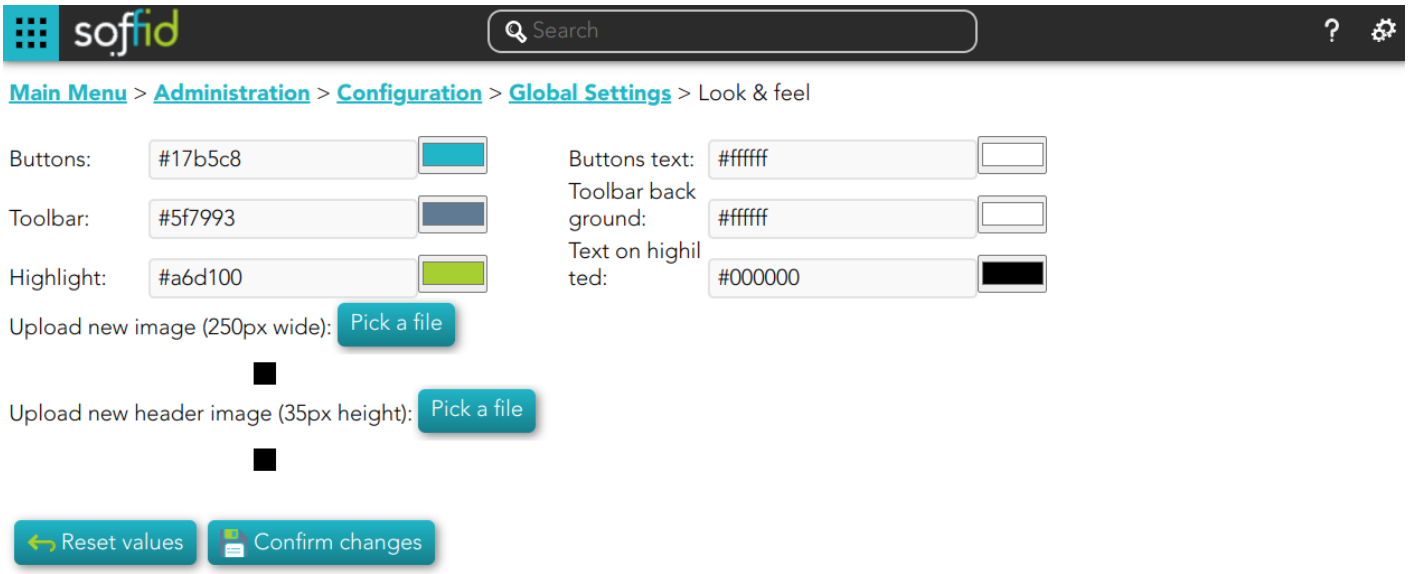

> Soffid's Look & feel page allows you to adjust the Console styles to your organization.

In this configuration page, the customization of three sections is allowed:

- You can change the colors of the Soffid components and text.
- You can change the image of the logo that appears on the login page.
- You can change the image of the logo that appears in the header.
- Changes made on this page affect the entire Console.

> Some changes may require updating the browser several times because some items are in the browser's cache.

Overview

Actions

Reset values	Allows you to return to the default Soffid values.
