

# Look & feel

## Definition

Soffid's Look & feel page allows you to adjust the Console styles to your organization.

In this configuration page, the customization of three sections is allowed:

- You can change the colors of the Soffid components and text.
- You can change the image of the logo that appears on the login page.
- You can change the image of the logo that appears in the header.
- Changes made on this page affect the entire Console.

Some changes may require updating the browser several times because some items are in the browser's cache.

## Overview

**sofid** Search ? ⚙

[Main Menu](#) > [Administration](#) > [Configuration](#) > [Global Settings](#) > Look & feel

Buttons:	<input type="text" value="#17b5c8"/>		Buttons text:	<input type="text" value="#ffffff"/>	
Toolbar:	<input type="text" value="#5f7993"/>		Toolbar back ground:	<input type="text" value="#ffffff"/>	
Highlight:	<input type="text" value="#a6d100"/>		Text on highl ted:	<input type="text" value="#000000"/>	

Upload new image (250px wide):

Upload new header image (35px height):
