My Profile

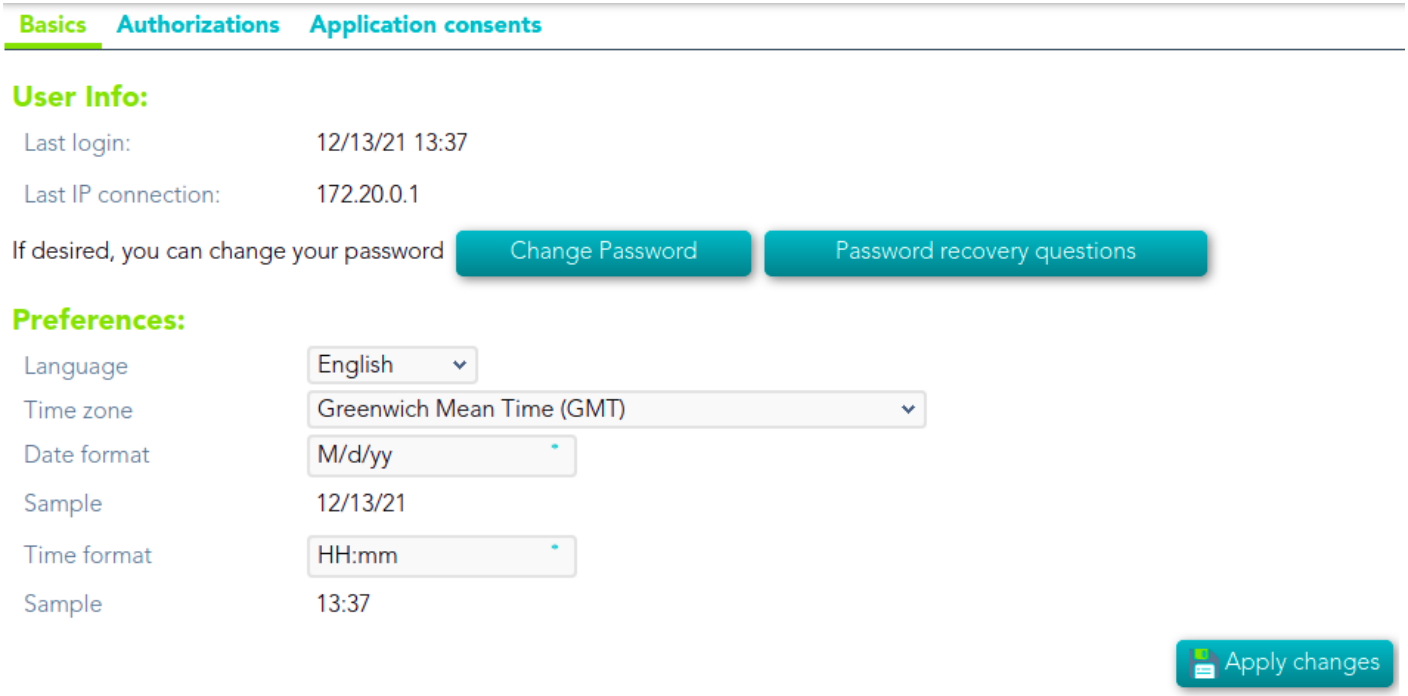

Description

> My Profile is a part of a Soffid Self-service portal that allows to end-users config their own profile, update the user info and preferences, change their password, and recover questions.

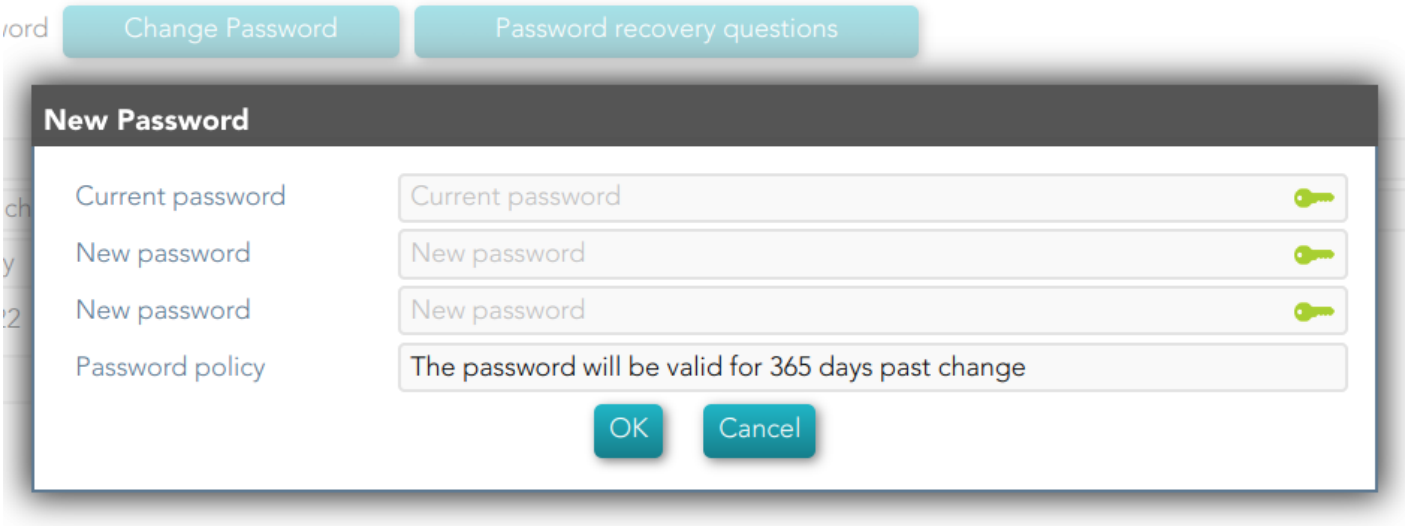

To display My Profile page you need to click on the config icon and then click My Profile on the options menu. Then Soffid displays a new window that will allow end users to configure their profiles.

Screen overview

Authorizations tab

Basics | Authorizations | Application consents

Permissions:

These authorizations control the permissions each user.

If the listing does not appear in any domain value mean that you have permission to set authorization for all the domain.
If in the domain value appears a group code (lowercase), mean that you have the permission users who belong to this group (either as primary or se condary group).

Here you can view your authorizations:

Role	Authorization [domain value]	ITS Scope	Dom…
Filter	Filter	Filter	Filter
SOFFID_ADMIN	Query all access logs	Access logs	*
Account Operators	Query all access logs	Access logs	*
SOFFID_ADMIN	Change shared account password	Accounts	*
SOFFID_ADMIN	Create shared accounts	Accounts	*
SOFFID_ADMIN	Delete shared accounts	Accounts	*
SOFFID_ADMIN	Query shared accounts	Accounts	*
SOFFID_ADMIN	Update shared accounts	Accounts	*

Authorizations

Display a list with the user authorizations.

- **Role**
- **Authorization [domain value]**
- **Scope**
- **Domain value**

Application consents

Displays a list of all the user's consents given, and the user can see all of them. Users can remove the consent at any time as well.

When the user connects to a new application, the IdP will indicate which data will be shared with this application. That information is defined in the Attribute sharing policies page of the Federation.

>

For more info about password recovery, you can visit theAttribute sharing policies page.
