

Privileged accounts dashboard

Description

Soffid provides a monitoring functionality to consult all the information about the different Jump servers installed and configured.

The displayed info is the following:

- Jump server enabled accounts.
- High-privileged accounts.
- Jump server sessions.
- Used storage by PAM storage server.
- Free storage by PAM storage server.
- User with access to PAM jump servers.

Screen overview

Related objects

- Jump servers: [Configure PAM session servers](#)
- High-privileged accounts: [Accounts](#)

To activate this view you will need to enable the **Feed statistic tables** task on the [Scheduled tasks page](#).
