Search Types

Description

Throughout the Soffid you will be able to perform searches on the different objects that make up the application.

You will be able to search in the system by applying different ways of searching.

Quick

This option allows a quick search by fields that have been defined in the application metadata. You can find metadata configuration on <u>Global Settings > Metadata</u>

You only have to type in the field provided for this purpose and press enter or click on the magnifying glass, then Soffid will display the list with the objects that complain the criteria typed.

You can include some characters "," "." and "/" as word separators in the search text.

Example

rank							Q	Quick <u>Basic</u> Advanced		
	• Picture	[∆] User name		[≜] Primary group	[≜] Enabled	[≜] Birth Date	[≜] First name	[≜] Last Name	[≜] Middle name	🖞 Туре

Basic

This is the default option. It provides some default search criteria and other criteria can be added from the add criteria option. These criteria will depend on the entity or object on which the search is being performed.

Remember, each criteria will be added to the previous ones. Each search criterion will have different search forms depending on the type of data in the particular field. For instance, a text field provides four different options to search, "Contains", "Start with", "End with" and "Equals", a date field provides the date "Since" and date "Until".

Soffid allows you to and criteria by clicking on the Add criteria button, then Soffid will display a list with all the criteria available and allows you to select to add a new one. To delete criteria you only have to click on the Equis icon (x) of the criteria you want to remove and automatically Soffid will remove the criteria and run the search without the removed criteria.

The criteria depend on the object list where you are working, so for instance the criteria are not the same for the user's list and the group's list.

Example

Main Menu > Administration > Resources > Users									
Birt	n date Any 💿 Type Any 💿 U	ser name Any 💿 Last Name Conta	ins: "adams" 💿 Primary group A	ny 🙁 Ado	d criteria	<u>Quick</u> Basic <u>Advanced</u>			
Q			,						
	🗸 User name	♦ Full name	🗟 Primary group	🗟 Enabled	∜ NIF				
	alice	Alice ADAMS	enterprise	Yes					
	asok	Asok ADAMS	enterprise	Yes					
	boss	The Boss ADAMS	enterprise	Yes					
	carol	Carol ADAMS	enterprise	Yes					

Advanced

This option allows an advanced search system using the **SCIM standard**. You can type the query to search the info using the SCIM standard.

Example 1

M	ain N	<u> 1enu</u> > <u>Administration</u> > <u>Resources</u>		≡		
la	astNa	me co "adams" AND active eq true	Q	Quick Basic Advanced		
					9	
		• User name		🗄 Primary group	♦ Enabled	∜NIF
		alice	Alice ADAMS	enterprise	Yes	
		asok	Asok ADAMS	enterprise	Yes	
		boss	The Boss ADAMS	enterprise	Yes	
		carol	Carol ADAMS	enterprise	Yes	

Example 2

$\underline{Main\ Menu} > \underline{Administration} > \underline{Resources} > Users$

attrib	utes.manager co "fran"	Q		Quick Basic Advanced
