

Soffid chat-bot

Description

This new feature included in Soffid 4 allows you to interact with our AI to request information, or better yet, ask it to apply changes directly in the Console.

This feature is not enabled by default, you must activate a token in order to use it.

The power offered by this new tool is limitless. Our imagination, combined with training in Soffid's documentation and internal structure, enables us to accomplish many tasks.

Screen overview

The screenshot shows the Soffid web console interface. On the left is a navigation sidebar with the Soffid logo and tagline 'Identity made simple...'. The sidebar contains several menu items: ISS (Advanced), IGA (My OTP devices), AM (Resources), AM (Tools), PAM (Configuration), and IRC (Monitoring and reporting). At the bottom of the sidebar is an 'ADV' button. The main content area features a search bar at the top with the text 'Search in Soffid...'. Below the search bar is a breadcrumb trail: 'Main Menu > Self-Service portal > Soffid chat-bot'. The chat interface displays a 'Hello!' message followed by a code block containing '<code>`html`</code>'. Below this is another 'Hello!' message and a paragraph of text: 'I'm here to assist you with your Soffid configuration. I utilize information from [soffid.com](\"http://soffid.com\") and [bookstack.soffid.com](\"http://bookstack.soffid.com\") as my primary knowledge sources. How can I help you today regarding Soffid?'. At the bottom of the chat area is a text input field containing 'Hello!' and a 'Process' button.

The screenshot shows the Soffid chat-bot interface. On the left is a navigation sidebar with categories: ISS (Advanced), IGA (My OTP devices), AM (Resources), PAM (Tools), and IRC (Configuration, Monitoring and reporting). The main content area displays a search bar, a breadcrumb trail (Main Menu > Self-Service portal > Soffid chat-bot), and a title 'How to Create a User in Soffid'. Below the title is an introductory paragraph and a list of three steps: 1. Log in to the Soffid Console, 2. Navigate to User Management, and 3. Initiate User Creation. At the bottom, there is a chat input field containing the text 'How can I create create a user?' and a 'Process' button.
