Identity made simple_

Please, identify yourself.

User name: soffid.admin

Change user name

You can use your Soffid authenticator to login

A service provider named https://montse.demo.soffid.net/soffid-iam-console needs to authenticate you.

5. Open your Soffid Authenticator app on your device.

6. The application will display four options and you have to choose the proper bird. When you click the icon, a push authentication for login is sent to the Soffid Identity Provider.
