Conditions

Description

> Condition represents a Boolean expression that refines the applicability of the rule beyond the predicates implied by its target. Therefore, it may be absent.

Screen overview

Related objects

- **Policy**
- **Expressions**

Standard attributes

- **Condition name**: Name to identify the condition.
- **Expressions**: any element of ExpressionType complex type that return true or false.

Actions

Add new	Allows you to add a new condition to the conditions list. To add a new condition you need to click the add button, located at the end of the header and fulfill the form and save the data.
Delete	Allows you to delete a condition to the variable list. To delete the condition, you need to click the condition you want to delete, and click the button with the subtraction symbol (-) at the end of the record. To perform that action, Soffid will ask you for confirmation, you could confirm or cancel the operation.
Close	Allows you to save the data of a new condition or to update the data of a specific condition. To save the data it will be mandatory to fill in the required fields
Undo	Allows you to quit without applying any changes.
