

Conditions

Description

“ Condition represents a Boolean expression that refines the applicability of the rule beyond the predicates implied by its target. Therefore, it may be absent.

Screen overview

The screenshot shows a user interface for configuring a condition. At the top, there is a text label 'Condition name :' followed by a text input field containing 'Condition name'. Below this is a table with two rows. The first row is highlighted in green and has a header 'Expression' with a small icon to its left. The second row is highlighted in blue and contains the text 'Filter' in the first column and 'true' in the second column. To the right of the table, there are three labels: 'Expression type :', 'Value :', and 'Data type: :'. Each label is followed by a corresponding input field. The 'Expression type :' field is a dropdown menu with 'Attribute value' selected. The 'Value :' field is a text input containing 'true'. The 'Data type: :' field is a dropdown menu with 'Boolean' selected. At the bottom right, there are two buttons: 'Undo' with a left-pointing arrow and 'Close' with a checkmark.

Expression	
Filter	"true"

Total rows: 1

Expression type : Attribute value
Value : true
Data type: : Boolean

Undo Close

Standard attributes

- **Condition name:** Name to identify the condition.
- **Expressions:** any element of ExpressionType complex type that return true or false.

Actions

Add new	Allows you to add a new condition to the conditions list. To add a new condition you need to click the add button, located at the end of the header and fulfill the form and save the data.
Delete	Allows you to delete a condition to the variable list. To delete the condition, you need to click the condition you want to delete, and click the button with the subtraction symbol (-) at the end of the record. To perform that action, Soffid will ask you for confirmation, you could confirm or cancel the operation.
Close	Allows you to save the data of a new condition or to update the data of a specific condition. To save the data it will be mandatory to fill in the required fields
Undo	Allows you to quit without applying any changes.
