

# Conditions

## Description

“ Condition represents a Boolean expression that refines the applicability of the rule beyond the predicates implied by its target. Therefore, it may be absent.

## Screen overview

The screenshot shows a user interface for configuring a condition. At the top, there is a text label 'Condition name :' followed by a text input field containing 'Condition name'. Below this is a table with a single row. The first column of the table is labeled 'Expression' and contains the text 'Filter' followed by a text input field containing 'true'. The second column of the table is labeled 'Total rows: 1'. To the right of the table, there are three labels: 'Expression type :', 'Value :', and 'Data type: :'. The 'Expression type :' label is followed by a dropdown menu with 'Attribute value' selected. The 'Value :' label is followed by a text input field containing 'true'. The 'Data type: :' label is followed by a dropdown menu with 'Boolean' selected. At the bottom right, there are two buttons: 'Undo' and 'Close'.

Expression	Total rows: 1
Filter "true"	

Expression type : Attribute value  
Value : true  
Data type: : Boolean

Undo Close

## Related objects

- **Expressions**

## Standard attributes

- **Condition name:** Name to identify the condition.
- **Expressions:** any element of ExpressionType complex type that return true or false.

# Actions

<b>Add new</b>	Allows you to add a new condition to the conditions list. To add a new condition you need to click the add button, located at the end of the header and fulfill the form and save the data.
<b>Delete</b>	Allows you to delete a condition to the variable list. To delete the condition, you need to click the condition you want to delete, and click the button with the subtraction symbol (-) at the end of the record. To perform that action, Soffid will ask you for confirmation, you could confirm or cancel the operation.
<b>Close</b>	Allows you to save the data of a new condition or to update the data of a specific condition. To save the data it will be mandatory to fill in the required fields
<b>Undo</b>	Allows you to quit without applying any changes.
